HELP IS AVAILABLE NOW

CONFLICTS HAPPEN

Conflicts can cause great stress, and lead to fractured relationships, expensive and time-consuming lawsuits, or even worse – potential violence or property damage.

Getting a court date can take months to years, costs are high, decisions can be arbitrary and may not resolve the conflict.

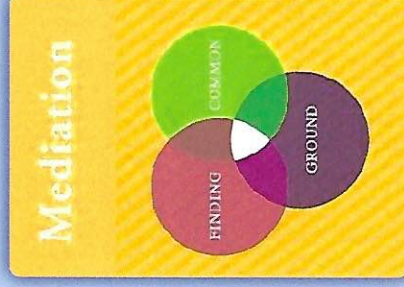

Mediation is affordable, fast, professional and a satisfying solution to most conflicts.

Mediation is private, confidential, less stressful and not open to public inspection.

In Mediation or Restorative Justice, conflicts are resolved with better outcomes; often relationships are repaired, communication is improved and money is saved. When participants create their own solutions, there is greater satisfaction with the outcome. CRC recognizes the current system of going to court does not resolve conflict between people.

IN SURVEYS:

100% of participants would use CRC services again and refer to family and friends.

Most persons rate CRC as excellent and participants describe CRC as “fair” to all persons.
